DETAILED ACTION

1. This office action is in response to a communication filed on 12/21/05. Claims 2-6, 8-16 and 18-34 are pending. Claims 7, 17 and 35-41 are cancelled.

Response to Arguments

2. Applicant's arguments with respect to claims 2-6, 8-16 and 18-34 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 2-6, 8-16 and 18-34 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Independent claims 2, 4-6, 8, 10-11 and 28-34 all state a limitation "single ferroelectric gate field effect transistor has its gate directly connected to a first data line". Neither the specification nor the drawings teaches or illustrates this limitation.
